

GEAUGA COUNTY

INDUSTRIAL DIRECTORY

Prepared by:

*The Geauga County Planning Commission
and
The Community and Economic Development
Department*

Note:

The Geauga County Industrial Directory was compiled from data that was collected through a mail survey sent to individual companies in 2016. The county geographical information system was used to select all industrial taxed properties with a building. The Planning Commission and the Community Economic and Development Department do not warrant the accuracy of this information and the directory may not represent all industrial companies within the county.
